WALLFLOWER RIESLING**

MT. BARKER (WESTERN AUSTRALIA)

89 POINTS

“The Mt. Barker region in Western Australia yields extremely crisp, often bracing dry Rieslings. They can be so tightly wound that they taste austere, even mean, in their youth. This particular Riesling, however, is open and ripe, with fresh peach and apple flavors, and a satisfyingly long finish. While it may not age as well as some others, it tastes great right now.”

-PAUL LUKACS, June 2, 2009
